Care in very wet areas required. Gumboots would be more suitable for wet area applications

Steel midsole advised to protect against glass penetration of the sole - (Ref: RE608-S3, RE210-S3, RE424, RE425, FX2-S1P)

It is important that the footwear selected must be suitable for the protection required by the wearer and the environment. If any uncertainty exists consultation between buyer and seller should be conducted to ensure that the correct footwear is selected. This application guide only offers very general advice and should be confirmed if there may be any concerns over potential protection from hazards of any form.
